

BARNT GREEN SURGERY Autumn 2021

barntgreen.surgery@nhs.net

0121 445 1704

Dr Jane Robertson will be leaving the practice at the end of December 2021. The partners and team here at Barnt Green wish to thank her for her hard work and dedication to the practice over the last 16 years and hope you will all join with us to wish her every success in her future endeavours

The Patient Participation Group (PPG) provides a forum for patients to discuss how healthcare works especially in General Practice but also in all other areas of health care with members of the Practice. We would like more members to represent all groups of people using health care. If you are interested in becoming a member then please email or call Lisa Edwards at Barnt Green Surgery

During September 2021 the practice

Received just under 9000 calls

Provided 1400 consultations with a GP both remotely and face to face

Administered over 1000 influenza vaccines and started the COVID booster programme

Provided a further 880 appointments via our nursing and clinical pharmacist team

The practice now has two clinical pharmacists within its team who support the GP's in managing your care. They can offer support by undertaking medication reviews, managing medication queries from patients and other healthcare professionals, monitor patients on high risk medication, manage some long term conditions, ensure the safe and rational use of medication and completing hospital discharge reconciliation of medication against your medical records.

Josceline Williams has been with the practice for a number of years and has been recently joined by Satwinder Kaur Matharu so you may receive calls or requests to have appointments with them rather than a GP

Please don't forget that Seasonal influenza vaccines are still available at the surgery for children aged 2 and 3, pregnant women, those with long term conditions and anyone aged 50 and over. Please call 0121 445 1704 to book an appointment

The partners would like to express their sincere thanks to the team here at Barnt Green for their hard work and dedication to the practice during the pandemic. They have worked tirelessly during the last 18 months to ensure that the practice stayed open, often working in quite difficult circumstances.

The practice now has a Facebook page where you can find out more information about the surgery and health promotional advice
